8 Filipinos wounded, 12 missing in Lebanon blast

MANILA-- Twelve Filipinos are missing after a deadly blast followed by shock waves rippled through the Lebanese capital Beirut on Tuesday, the Department of Foreign Affairs (DFA) confirmed.

One of the missing

nationals is a household service worker while the remaining 11 are seafarers who were onboard the ship MV Orient Queen docked about 400 meters away from the blast site.

Foreign Affairs Undersecretary Sarah Lou Arriola said the 11

were part of a group of 13 Filipino seafarers who all jumped into the sea as the massive blast tore through the city and sent plumes of smoke billowing into the sky. Two of the 13 are currently seeking shelter at the Embassy.

One Hospital Command Center to centralize Covid-19 beds

MANILA – To maximize the availability of hospital beds reserved for those infected with the coronavirus disease (Covid-19), the government on Thursday launched the One Hospital Command Center (OHCC).

The center, located at the Metropolitan Manila Development Authority (MMDA) Gymnasium in its headquarters in Guadalupe, Makati City, will provide coordinated care for Covid-19 patients, allowing for transfers, referrals, and to provide “medical direction” between hospitals, Department of Health (DOH) Undersecretary Leopoldo Vega said.

He said the OHCC will work in tandem with the DOH’s Covid-19 hotline, where calls that require “transfer,

coordinated care, or medical direction” will be transferred to MMDA responders at the OHCC.

“And the MMDA responders will connect with the different incident commanders of different hospitals whether they can actually accept patients that would need intensive care treatment or if they are full,” Vega said.

Controlling pandemic key to economic recovery: solons

MANILA – Several senators said on Thursday controlling the coronavirus disease (Covid-19) pandemic is key to improving the economy, following the 16.5-percent decline in the country’s gross domestic product (GDP) in the second quarter from a year ago.

In a statement, Senate President Pro-

He said ambulances can also be dispatched from the nearest hospital, local government, or other government agencies like the Bureau of Fire Protection through coordination provided by the OHCC.

Vega said the OHCC would also serve as the base on expanding the capacity

(Turn to p. 2)

Tempore Ralph Recto said the Philippine economy can only improve and “get people back to work, consume and invest” if they are confident that the government can address health concerns.

He said among the reasons for dampened consumption, which comprises 60 percent of

COMMAND CENTER. Health Secretary Francisco Duque III (3rd from left) and MMDA chairman Danilo Lim (right) lead the ceremonial ribbon cutting for the launch of the One Hospital Command Center at the MMDA Headquarters in Makati City on Thursday (Aug. 6, 2020). Health Undersecretary Leopoldo Vega (left), National Task Force Against Covid-19 chief implementer Secretary Carlito Galvez Jr. (2nd from left), and Defense Secretary Delfin Lorenzana (4th from left) attended the event. the economic pie, is the people’s fear of contracting the virus.

Another factor in the plunging consumption is the lack of public transportation, which in turn contributed to the surge in the unemployment rate, he noted.

Unless we improve

our health response the economy will not recover as quickly as we want it. A comprehensive health response, especially testing, which in turn will rebuild confidence, is the main ingredient of the cocktail of cures,” Recto said.

“We must flatten

the curve to revive the flat-lining economy,” he added.

For starters, Recto said the government must use the next two weeks to motivate the country’s health personnel, hire more of them, improve hospital capacity to treat those

(Turn to p. 2)

ONE HOSPITAL . . . Fr. p 1

of hospitals for Covid-19 patients.

"We are also here for strengthening capacity. And strengthening capacity would mean we need to identify ready hospitals that can accommodate intensive care or rooms for moderate cases," Vega said.

He cited the new building at the East Avenue Medical Center, set to be inaugurated as the "main integrated facility for Covid-19" on August 17, as an example of the government's plan to expand the capacity of existing hospitals.

"We are also strengthening capacity by putting up modular hospitals. And one of the identified modular hospitals that can serve moderate and severe cases is at [Quezon Institute]. But this is going to be an extension facility of Jose Reyes Memorial hospital because it can never be standalone," Vega said.

Secretary Carlito Galvez Jr., Presidential Adviser on the Peace Process and chief implementer of the National Task Force (NTF) Against Covid-19, said the government originally had two coordinating centers for

Covid-19—one located at Camp Aguinaldo and another managed by the DOH.

"Meron na tayo talagang nabuo na command center and also yung DOH meron din sila. Ang ginawa lang natin, instead na meron magkahiwalay na command center ang DOH at saka yung NTF, binuo na lang natin na isang command (We had a command center and DOH had their own. What we did is, instead of having separate command centers, we merged them into one)," Galvez said.

Aside from unifying the two separate coordinating centers, he said the space provided by the MMDA will allow for further expansion of the OHCC.

"Sa ngayon lang, masyadong nag-expand na, nakikita natin hindi lang Metro Manila, hanggang Region 3 and Region 4A. At the same time, pwede i-expand up to [the rest of] Luzon and Visayas (For now, we have already expanded, we can see not only Metro Manila but also Region 3 and Region 4A. At the same time, we can expand to the rest of Luzon and Visayas)," Galvez said. (By Raymond Carl Dela Cruz/PNA)

8 FILIPINOS . . . Fr. p 1

"They jumped from the ship and only two are accounted for, so we're trying to find out if they were able to swim to the shore. We'll be giving more details once we have concrete information on the ground," she told reporters in a virtual briefing.

The Philippine government is in coordination with the Lebanese authorities for efforts to locate the 12.

Arriola added that two Filipinos also died while eight were injured when the explosion took place in Beirut's port. Of the wounded, one sustained serious injuries while the seven had

minor ones.

"As of now, everything is very fluid because it hasn't been 24 hours since the incident took place and if you've seen, the explosion was really massive. We are trying to tell all our overseas Filipino workers in Lebanon and all the next of kin that we are doing the best we can to assist all our nationals," she said.

The DFA is also working to repatriate the remains of the blast victims "as soon as possible", Arriola said.

A warehouse storing around 2,750 metric tons of ammonium nitrate is being linked to the devastating Beirut

CONTROLLING . . . Fr. p 1

who need it, test more, and isolate those infected.

He also urged the government's economic team to present during budget hearings a "second half" battle plan.

"We lost PHP1.4 trillion during the first half. About PHP 10.8 billion daily from April to June alone. The economy is gasping in the ER and a more robust stimulus package is the ventilator that it needs," Recto said.

Senate Minority Leader Franklin Drilon, meanwhile, emphasized the need to revive the demand side of the economy by restoring the people's confidence in the ability of the government to handle the pandemic.

"The key is to revive demand, but that will only happen when people feel safe to go out. People will feel confident when they see that the government is doing the right thing, effective measures are in place and the healthcare system is not collapsing," he said.

"Thus, it all boils down to our ability to control the pandemic," Drilon said.

He said there is a need to increase the stimulus fund under the Bayanihan to Recover as One Act (Bayanihan2).

On Wednesday, the House of Representatives passed the measure on second reading, containing a PHP 162 billion-stimulus fund.

Drilon said the second round of social amelioration program (SAP) is in order for those who were badly hit by the pandemic.

"Their lives did not become better after receiving the first tranche. They are the ones who continue to experience hunger every day. The government should provide for them until the pandemic is over," he said.

His call for a second round of SAP was echoed by Senator Sherwin Gatchalian who pointed

explosion that reportedly killed around 100 people and injured over 4,000.

The Lebanese government has declared

out that the economic contraction created by the coronavirus pandemic will push numerous families back into poverty that will eventually worsen hunger and malnutrition in our country.

"At this point, it is important for the government to guarantee that there is food on the table for every Filipino family. I implore the government to expedite the distribution of the second tranche of the SAP to the 18 million low-income beneficiaries since most areas have again been placed under stricter quarantine protocols," Gatchalian said in a separate statement.

"Given that many of our constituents may not be able to go back to their respective work under a modified enhanced community quarantine (MECQ), the government should continue to give out the SAP even if we revert to the general community quarantine (GCQ). This is to ensure that no family will go hungry with the economy in tailspin under the pandemic," he added.

Meanwhile, Senator Sonny Angara assured that the Senate is willing to work with economic managers to hammer out the needed economic recovery strategy.

"All economies of the world are in a recession. What is important is the recovery strategy which a country pursues," the chair of the Senate Committee on Finance said.

"Bayanihan 2 will help initially but many are commenting it should be followed by other economic actions. Kami naman sa Senado (As for us in the Senate), we have shown our willingness to work with our economic managers to pursue a successful recovery strategy," Angara said. (PNA)

Infected people face big fines in Australia

Melbourne— Hundreds of people in Australia's worst-hit state have been caught flouting stay-at-home orders, authorities said Tuesday, prompting tougher fines.

The southern state of Victoria has endured a second wave of infections over recent weeks that the government has partly blamed on people breaking rules that restrict travel.

Residents of Melbourne, Australia's second biggest city and the capital of Victoria, are now enduring an overnight curfew, closure of non-essential businesses and mandatory mask-wearing as hundreds of new cases are recorded daily.

But 800 infected

people—or more than 25 percent of those doorknocked across Victoria—were not at home when authorities conducted recent checks, which state Premier Daniel Andrews called "completely unacceptable".

Andrews said people infected in Victoria can now be slapped with on-the-spot fines of almost Aus\$5,000 (\$3,558)—up from Aus\$1,652—if they are caught leaving home a second time.

The only exception will be to seek emergency medical care. Previously, outdoor exercise was allowed.

Police can also take serious rule-breakers to court, where fines of up to Aus\$20,000 (\$14,233) can be applied.

INFECTED . . .FR. P. 2

An additional 500 troops will also be deployed in Melbourne to help health officials go door-to-door checking on people who should be staying at home, Andrews said.

Victoria police commissioner Shane Patton said hundreds of officers were also on the streets to enforce the curfew, mask-wearing and stay-at-home orders.

Patton said police had observed a small but emerging trend of so-called "sovereign citizens", who believe the laws do not apply to them and were consistently flouting the rules.

"We've seen them at checkpoints baiting police, not providing a

name and address," Patton said.

"On at least four occasions in the last week, we've had to smash the windows of cars and pull people out to provide details."

Just over 160 fines were handed out in Victoria in the past 24 hours, including to a woman who was charged over allegedly smashing a police officer's head into concrete after being questioned for not wearing a mask.

Victoria has recorded more than 12,000 of almost 19,000 total coronavirus cases across Australia, as well as 147 fatalities of the country's total of 232.

Ensure equal education opportunity to poor students: Go

MANILA – With a little more than three weeks to go before classes officially open, Senator Christopher "Bong" Go on Thursday urged the education sector to ensure that the burden that may result from the transition to flexible modes of learning amid the coronavirus disease (Covid-19) pandemic will not be passed on to students, especially the poor.

"Schools and education officials must guide students in order for them to adjust to new modes of learning. Siguraduhin natin na lahat ng mga estudyante ay mabibigyan ng pantay na oportunidad sa ilalim ng ating (Let us ensure that all students will be given equal opportunities under the) learning continuity plan in all levels of education," Go said.

"Despite the current health crisis, our aim is to ease the burden for our students and also their families," he added.

In urging for equal opportunity in education, the chair of the Senate Committee on Health noted that the consequences of the current health crisis on education make it imperative to look not only in the government's capability to adjust to these challenges but also the students'

capability to respond to the new norm of education - the online platform.

Go said even if the government offers free education in many state colleges and other vocational schools, many students are facing issues other than tuition that are intensified further due to the adverse socio-economic impact of the pandemic.

The prospects are especially grim for the majority of college and vocational students who come from poor families, he said.

"Marami pa rin sa ating mga mag-aaral ang mahihirap at naghahanap ng paraan para maitawid ang kanilang mga nagugutom na sikmura habang nag-aaral. Ano pa ngayong may pandemya na? Ibig sabihin, mas mahirap po ang sitwasyon ngayon (Many of our students are still poor and trying to find ways to feed their empty while studying. What more now that there is a pandemic? It means the situation is now more difficult)," he said.

He noted that the situation of poor students is confounded by their lack of access to digital equipment and internet connection.

"Sana naman po ay walang bumagsak na estudyante dahil kulang

Distribution of Financial and Burial Assistance

Amidst the Covid 19 pandemic, the provincial government led by Governor Jonvic Remulla never cease to find ways to deliver its services to the people of Cavite, particularly the distribution of financial assistance which was temporarily suspended due to the outbreak. Prioritizing the safety of its constituents, mass distribution which will gather a huge crowd was disallowed prompting the Office of the Governor to spearhead the house-to-house distribution of aid to beneficiaries.

Aside from the Botika on wheels which caters to the medical needs of the locals, the team from the Office of the Governor and the Provincial Social Welfare and Development Office went down to barangays to dispense financial and burial assistance which were already processed in the previous months and awaiting release.

On July 21- 23, a total of 116 beneficiaries were given assistance including those from

sa kagamitan, walang access sa teknolohiya, o hindi sapat ang kaalaman sa bagong modes of learning na ma i i m p l e m e n t a ngayon. Kung tayo nga po sa Senado ay nahihirapan pa sa Zoom, tulad ngayon, napuputol-putol po ang ating connection, paano po sila - ang mga estudyante?" Go said.

(We hope that no students will fail because of their lack of equipment, no access to technology, or lack of knowledge to the new modes of learning that will be implemented. If we in the Senate are still having difficulty with

the municipality of Mendez with 33 recipients, 40 from Tagaytay City and 43 citizens from General Emilio Aguinaldo.

Another batch composed of 408 recipients were granted assistance on July 28-31 with 114 beneficiaries from Ternate, 53 residents from Alfonso, 104 from Magallanes and 137 beneficiaries from Amadeo.

Owing to the huge impact of the pandemic to the health and livelihood of Caviteños, the provincial

government's response actions focus not only in stopping the further spread of the virus through policies and guidelines, education and information, treatment, testing ang contact tracing but also in providing the needed assistance like financial aids, food and non-food commodities, and ways to move forward like business continuity for the economic sector, tourism and education sector support, and many more.

Zoom, like now, our connection is intermittent, what more for them – the students?)

He urged concerned agencies to take these issues in consideration while trying to ensure that education continues despite the health crisis.

"This is so that we can continue to improve our education system and bridge the gaps of learning without giving more stress mentally, emotionally, and financially," Go said. (By Jose Cielito Reganit/PNA)

CREATE YOUR SANITATION STATION WITH SM HOME

Cool yourself with Dyson Pure Cool Me Personal Purifier with its Core Flow™ technology, which directs a focused stream of airflow precisely where you need it.

With most of us now going out for work, it is important for every home to have a sanitation station at the door to get everyone into disinfecting and sanitizing before they enter their own home. The station will also keep our homes clean and safe to prevent the spread of the illness and other unknown viruses with essentials for intense washing, dusting, sanitizing and disinfecting on most touch-infected areas or common surfaces in your home such as doorknobs, handles, light switches, gadgets and tabletops.

SM Home, the one-stop shop for all of your home essentials, has a wide variety of household items for all your sanitizing needs. Here is the SM Home's **DIY Sanitation Station Guide** to keep your home safe and disinfected:

Stay Safe and keep your sanitizing essentials organized with this multi-function mobile trolley.

1. Set up a table and a mobile trolley near the door entrance. Put all the sanitizing essentials on the trolley and organize them in storage trays.

Lessen the risk of cross-contamination with this Infiniti Automatic Touchless Soap Dispenser

Thoroughly wash your hand with your favorite foaming hand soap with this Infiniti Touchless Foaming Soap Dispenser.

2. Have a fill of sprayers with alcohol and disinfectants. Choose an EPA-registered disinfectant, a 70% Isopropyl Alcohol and a

contactless soap dispenser as you disinfect and wash your hands.

Have a waste bin ready for your used mask and gloves.

3. Have a waste bin to properly dispose used masks and gloves.

Do not forget to have a foot bath before you enter your home with this non-slip sanitizing mat.

4. Put a shoe rack and a disinfecting mat outside. Have a foot bath on the disinfecting mat before putting the shoes on the rack. Always keep the mat clean before and after using the mat.

Make any space clean and cool with Dyson Pure Cool™ Tower Purifying Fan which detects harmful pollutants in the air and an advanced filtration that captures 99.95% of Particle Pollution and an Air Multiplier™ Technology for whole-room purification.

Thousands evacuated as forest fires rage in southern France

Around 2,700 people have been evacuated, some of them by boat, to escape forest fires that were raging Wednesday across a vast area near the southern French city of Marseille, officials said.

Thousands evacuated as forest fires rage in southern France Some 1,800 firefighters are battling the blazes, which broke out on Tuesday afternoon, fanned by strong winds.

The fires have ravaged about 1,000 hectares (2,500 acres) of vegetation and are threatening residential areas and campsites near the coast, the fire service said.

No casualties have been reported, "but material damage has still to be evaluated," it said.

The blazes are not yet under control, but

5. If needed, set-up a makeshift changing room with curtain and ready a laundry basket for changing.

Take sanitation into the next level with Landlite UV-C Portable Sterilizer Lamp, which kills 99.9% of bacteria and viruses and disinfects your home.

A picture taken on August 4, 2020 shows three Canadair bomber planes of the French Securite Civile flying past a column of smoke, as wild fires broke out in La Couronne, near Marseille. Several fires were raging on August 4 evening near Marseille, with one particularly fuelled by strong winds, ravaging nearly 300 hectares of vegetation in a coastal area of Martigues, according to the authorities. AFP

lighter winds are expected later Wednesday. by boat and are being looked after by local authorities.

Eight campsites near the towns of Martigues, where the fire erupted, and Sausset-les-Pins have been evacuated "as a preventative measure", the fire service said.

A second blaze in the same region broke out near an industrial park, and raged across 120 hectares, damaging a house and several businesses.

Face shields required in public transport by Aug. 15: DOTr

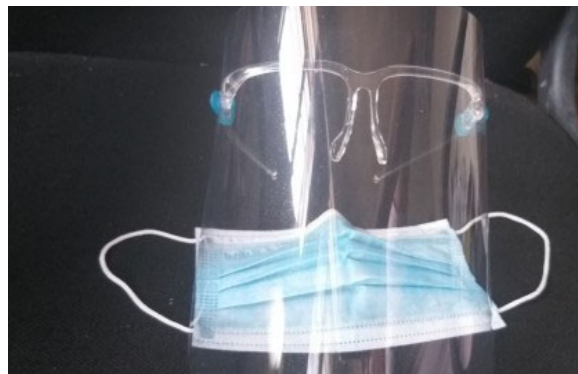

MANILA – The use of face shields will soon be mandatory for passengers and drivers of public transportation to curb the transmission of the coronavirus disease (Covid-19).

In a media bulletin on Wednesday, the Department of Transportation (DOTr) said the new policy would start on August 15 (Saturday), on top of the current mandatory wearing of face masks.

“The initiative aims to further reduce the risk of transmitting the coronavirus disease (Covid-19) in public transport facilities as health authorities have pointed out that the use of face shields and masks reduces exposure to and emission of respiratory droplets considerably,” the DOTr said.

The directive is applicable to all public transportation in the country including the aviation sector, airports, railway transport, road transport, and the maritime sector, it said.

In a message, DOTr Assistant Secretary Goddes Hope Libiran said the policy was earlier circulated internally among executives of the DOTr

ADDED PROTECTION. Starting August 15, public transport commuters and drivers are required to use face shield, aside from face mask, as an added layer of protection against coronavirus. (File photo)

and its attached agencies through the issuance of memorandum circular 2020-014 signed by DOTr Undersecretary Artemio Tuazon Jr. on August 3.

In the bulletin, Tuazon said the face shield worn inside public transport should “sufficiently cover the nose and mouth.”

“We advise that our passengers use the ones that cover the whole face,” Tuazon said.

While the new requirement will incur some cost for public transport commuters, DOTr Secretary Arthur Tugade said the face shield would add an extra layer of protection against Covid-19.

“Huwag sana nating isipin na panibagong gastusin o

dagdag abala ang pag-require natin sa paggamit ng (Let us not think of this as an additional expense or inconvenience when using a) face shield. Let us remember that no amount of protection is too much when it comes to health and safety,” Tugade said.

Aside from mandatory wearing of face shields, the DOTr said other preventive measures against Covid-19 remain such as mandatory wearing of face masks, safe physical distancing measures, and hand washing or sanitizing.

It added that talking or using mobile phones inside all public transportation is also discouraged. (By Raymond Carl Dela Cruz/PNA)
