Get your kids vaccinated for measles: Palace

MANILA – Malacañang Thursday urged parents to get their children vaccinated for measles following predictions of a possible measles outbreak in 2021.

Presidential Spokesperson Harry Roque allayed fears

– against the government's immunization campaign, saying a measles vaccine is one of the "oldest" vaccines to be used globally.

"Ang mensahe po ng Presidente: Mga magulang huwag po nating katakutan ang

bakuna (The President's message: Parents, don't be afraid of getting your children vaccinated)," he said in a Palace press briefing.

Roque said failing to get their children vaccinated could put their health at great risk.

(Turn to p. 2)

Feeding program for students to continue amid pandemic

MANILA – The feeding program for children will continue despite blended learning approaches in schools amid the

coronavirus disease (Covid-19) pandemic, Malacañang said Thursday.

In a Palace press briefing, Presidential

Spokesperson Harry Roque said instead of preparing hot meals for students, nutritious food products will be delivered to households

or picked up by parents from schools.

"Hinahatid po ng barangay sa mga malnourished na mga mag-aaral ang libreng at masustansiyang tanghalian sa kanilang mga bahay (The barangay will deliver them to the homes of malnourished students the free nutritious lunch right in their homes)," he said.

Last month, the Department of Education (DepEd) said there will be changes in the feeding program since learning will now be home-based.

Due to the changes in the school calendar, DepEd Undersecretary Nepomuceno Malaluan said the feeding period for this school year is reduced to 60 days for the regular component, which includes nutritious food products, and 50 days

for the milk component.

Classes for the school year 2020-2021 started on Oct. 5 after it was moved from its initial schedule of August 24.

Blended learning strategies involve the use of TV and radio-based instruction, as well as modular and online learning.

In June 2018, President Rodrigo Duterte signed into law Republic Act No. 11037 or the Masustansyang

Pagkain Para sa Batang Pilipino Act, which establishes a national feeding program for undernourished children in public daycare centers, kindergarten, and elementary school.

Under the law, the government shall provide a supplemental feeding program for daycare children, a school-based feeding program for public school children from kinder to Grade 6, a milk-feeding program, (Turn to p. 2)

10K healthcare workers went abroad since January: POEA

MANILA – The Philippine Overseas Employment Administration (POEA) on Wednesday said around 10,000 healthcare workers (HCWs) left the country to work abroad since the start of the year.

POEA Administrator Bernard Olalia said the health workers, particularly nurses, are Balik Manggagawa (BM) who went home for the Christmas vacation.

"Since the start of the year, we were able

to send abroad 10,000 HCWs particularly nurses who are Balik Manggagawa. They went home for the Yuletide Season and went back to their jobs abroad after the Christmas break. We continue to allow BM

to leave," he said during the weekly forum of the Department of Labor and Employment (DOLE).

Olalia said the government-to-government hired overseas Filipino (Turn to p. 2)

FEEDING . . FR. P. 1

a micronutrient feeding program, health examinations, vaccinations, and deworming among others.

The law also includes the creation of a National Nutrition Information System

which will harmonize all existing national and local nutrition databases to identify individuals, groups, and/or localities that have the highest magnitude of hunger and undernutrition. (By Azer Parrocha/PNA)

10K. . Fr. p 1

workers (OFWs) are also allowed to report to their employers abroad.

"We deploy them on the basis of our bilateral labor relations we signed with other host countries. In Germany, we have 550 nurses in the pipeline for this year. We have also 400 more in the pipeline last year," he said.

He said nurses and other healthcare workers are allowed to work abroad as long as they have contracts signed as of August 31.

"Since April, May, June, more or less we send abroad 400 nurses who were hired by recruitment agencies, every month. We include direct hires upon the intervention of the recruitment agency. We have an average deployment of 500 to 600 HCWs every month despite the implementation of the temporary suspension," he said.

President Rodrigo Duterte earlier approved the POEA proposal to extend the exemption period from March 8 to Aug. 31 for health care workers from the temporary deployment ban to allow those who have

already spent to have their documents the chance to get their money's worth.

Duterte has yet to make a decision on the total lifting of the deployment ban due to the threat of the coronavirus disease 2019.

Warned against illegal recruiters

Olalia, meanwhile, warned the overseas Filipino workers (OFWs) against illegal recruiters particularly those engaged in third country recruitment.

He said unscrupulous individuals or groups are using the Covid-19 pandemic to entice Filipino workers abroad by offering higher salary.

"We would like to remind our OFWs against third country recruitment. They are being offered jobs with high salaries. Avoid them, Don't be victim," he said.

He said illegal recruiters are using different social media platforms in offering supposedly high paying jobs to Filipinos employed overseas.

Olalia advised the Filipinos abroad to always check and validate the invitation

GET YOUR KIDS . . Fr. p 1

"Bakit pa po natin i-expose sa aberya ating mga minamahal sa buhay na mga chikiting eh samantalang mayroon naman po tayong tried and proven na bakuna laban diyan?(Why will we expose our children to harm when there are tried and proven vaccines to prevent diseases?)," he said.

He acknowledged concerns over vaccines after issues hounding the Dengvaxia anti-dengue vaccine but noted that the case for measles vaccines is different.

"Itong measles naman po, matagal na pong ginagamit iyan so wala po kayong dapat ikatakot 'no (This measles vaccine has been used for a long time, so you have nothing to fear)," he said.

Last Wednesday, the Department of Health (DOH) said it will conduct a nationwide immunization campaign to prevent a predicted measles outbreak next year.

An estimated 2.4 children under the age of 5 are also susceptible to measles, one of the world's most contagious diseases.

Meanwhile, Roque also appealed to the public to hang on a bit

at any Philippine Overseas Labor Office (POLOs), Labor Attachés, and Philippine embassy.

Aside from validating the invitation, he said the OFW should also be aware on who is/are those recruiting them.

"They should validate the invitation at our POLOs, Labor Attaché, embassy and

longer until a vaccine against coronavirus disease 2019 (Covid-19) is available.

"Antay lang po nang konti, konting tiyaga at ang pangako naman ng Presidente, gagastusin po natin ang kaban ng bayan para mabigyan unang-una ang mga mahihirap ng bakuna laban sa Covid-19 (Just wait a bit longer and the President promised that he'll spend public funds to give the poor a vaccine against Covid-19)," he said.

Earlier, Roque said the government is ready to implement an immunization plan should a Covid-19 vaccine roll out in the future.

He said the government can allocate PHP20 billion to buy the vaccine with the help of the Philippine International Trading Corp., Land Bank of the Philippines, and the Development Bank of the Philippines.

President Rodrigo Duterte said he will seek a discount from China and Russia on the Covid-19 vaccines that each of the two countries developed and promised to supply the Philippines with. (By Azer Parrocha/PNA)

also check it at our website, www.poea.gov.ph. They should know the identities of those who are recruiting them," he said. "If they were asked to pay placement fee, they should have doubts that they are being victimized by illegal recruiters." (By Ferdinand Patinio/PNA)

DOST gears up for Covid-19 vaccine clinical trials

MANILA – The Department of Science and Technology (DOST), as the lead agency of the Inter-Agency Task Force's sub-technical working group on vaccine development, is currently preparing for World Health Organization (WHO) Solidarity Trial for the coronavirus disease 2019 (Covid-19) vaccine.

In a taped DOST report aired Friday afternoon, DOST Secretary Fortunato de la Peña said he believes the clinical trials would start soon.

The DOST would ensure the vaccines' safety and efficacy, he said.

"We also want to be transparent to everyone," de la Peña added.

DOST-Philippine Council for Health

Research and Development executive director Jaime Montoya reported that there were already three players which submitted the requirements to the Food and Drug Administration (FDA), indicating their interest to conduct clinical trials in the Philippines.

These three are the Gamaleya Research Institute of Russia, Janssen, and Sinovac.

Several hospital sites are also preparing for the WHO Solidarity Trial, according to Montoya. These include hospitals in Metro Manila, Cebu, and Davao.

"We are also planning for a dry run, to test our readiness for the (Covid-19 vaccine) clinical trials. This will be in close coordination with the DILG (Department of the

P1-B nearly expired medicines distributed already: DOH

MANILA – The PHP1 billion worth of nearly expired medicines flagged down by the Commission on Audit (COA) had been distributed already, Department of Health (DOH) Undersecretary Maria Rosario Vergeire said on Wednesday.

“Presently, we were able to distribute all n e a r - e x p i r i n g medicines amounting to PHP1 billion,” Vergeire said in a media forum.

In a press release, the DOH said the COA report that presented PHP2.2 billion worth of either expired, nearly expired, overstocked, and slow-moving “has been taken out of context”.

“The DOH emphasized that the CY 2019 COA-Consolidated Annual Audit Report (CAAR) on which these articles were based was for CY 2019, which means this only covers the period of January to December 2019, adding that the current status of the DOH Central Office figures is now different,” it said.

Recognizing its vital role in ensuring that government resources are properly allocated and utilized during the pandemic, the DOH acknowledged the issues flagged by COA.

In connection with this, the DOH has implemented reforms which include the formation of a dedicated Procurement and Supply Chain

Management Team and the reorganization of the Disease Prevention and Control Bureau which is the office-in-charge of determining commodities and supplies of public health significance to be provided for local government units (LGUs).

“In fulfillment of the Universal Health Care Act's provisions on financing population and individual-based services that clearly delineate the roles of the DOH, Philippine Health Insurance Corporation (PhilHealth), and LGUs in health service d e l i v e r y , complemented by the phased implementation of the Mandala ruling, the health department is expected to procure significantly less medicines and commodities,” the DOH said.

It added the purchase of drugs, medicines, and commodities shall be covered by the PhilHealth benefit packages and more funds are expected to be directly transferred to the LGUs.

It said the PHP322 million worth of items will expire in 2021 to 2023 and are also being distributed.

On Tuesday, Malacañang said President Rodrigo Duterte has urged DOH to distribute nearly expired medicines to minimize wastage of government funds. (By Ma. Teresa Montemayor/PNA)

HOME SCHOOL ADVICE FROM SM

As the schoolyear begins with online and blended learning innovations, home schooling takes on a different meaning for today's kids. And they will be needing all the tools to stay smart, creative, and productive from SM Stationery and Gadgets Hub, your one-stop shop for your homeschool needs.

SM Stationery has a wide selection of school stuff that will help your kids master distance learning. These include traditional school supplies like writing pads and other paper products to whiteboard and clear file for worksheets; from pens and pencils to markers and highlighters. And as kids navigate their online classes, the Gadgets Hub will keep them updated with Laptops, flash drives, Bluetooth headsets and inkjet printers. How to make the most out of making your home a classroom? Here are some tips for parents from the SM Stationery and Gadgets Hub:

1. Set a schedule for your study time with your kid. Let your child set the time for each subject that you want to work on, hour by hour, day by day, week per week.

2. Choose a quiet and well-lit area where your kids can focus on their lessons.

3. Stock up on homeschool supplies. Have enough pencils, erasers, activity books, notebooks, pad paper, and other school supplies you need. Prepare the gadgets they needed and sanitize it before starting the class.

4. Encourage your child to read and write freely. Make them read their favorite books whenever they are bored or have them keep a daily journal which helps them to deal their fears and anxieties.

5. Allot time to encourage your child's creativity through drawing, craft-making or other extracurricular activities such as cooking or gardening that will nurture their skills.

6. Keep your child in touch with their friends virtually from a regular basis. This may be done after they completed their school worksheet.

7. A homeschool environment will be new for you and your child. It's going to be challenging, so it's okay to ask help from your child's teacher, tutors or fellow parents who's into homeschooling.

SM Stationery and Gadgets Hub is now online on www.smstationery.com.ph and with the SM Store's #143SM Call to Deliver services. You can now have your homeschool must-haves delivered right to your doorstep. Follow SM Stationery PH in Instagram and Facebook and join their Viber community for more details and info.

Homeschooling sparks creative learning and fun parenting that must go hand in hand.

SM Stationery has the wide variety of homeschool supplies for your needs. Call #143SM to Order.

Master online classes with the Lenovo Ideapad3 series.

Keep your kids busy and stay smart with the right homeschool supplies in this All-in-One School backpack.

Use this Brother inkjet multi-function printer for all your printing needs.

Designate a well-lit area which is conducive to learning that helps your child focus.

Save files in mobile or with your PC with Sandisk OTG Ultra Dual USB Drive.

Easy to Plug and Play Edifier K800 Headset with adjustable head bands and foam ear cups for comfort fit

Go wireless with this Nano Wireless keyboard and mouse combo.

DOST... Fr. p 4

Interior and Local Government), and the (Bureau of) Customs," Montoya said.

Coordination with the DILG is needed since the clinical trials would require the cooperation of communities. Coordination with Customs, on the other hand, is necessary for the vaccines' storage requirements, he explained.

"There will be zoning or places assigned to specific vaccines to avoid overlapping. The local governments will assist in the conduct of trials, such as transporting the patients, and other support to implement

the clinical trial in their barangays," Montoya said in a text message.

Meanwhile, Montoya said it normally takes five years to produce a vaccine. However, people are attempting to produce the Covid-19 vaccine in one year or even less.

"Because of this, we are targeting a 50 percent efficacy rate. This means that if (a vaccine is found to be) 50 percent effective, it already passed (the test), and we will move on to the next vaccine to be tested. We would also see if there are side effects," he said. (By Ma. Cristina Arayata/PNA)

DTI's bagsakan special project supports local MSMEs

In its aim to assist micro, small and medium enterprises, local farmers, other plant growers and cooperatives in the country to survive amid the COVID-19 pandemic, the Department of Trade and Industry (DTI) through the Trade Promotions Group (TPG) – Bureau of Domestic Trade Promotion (BDTP) in coordination with DTI Regional and Provincial offices, initiated the 18th Bagsakan Special Project held at Main Square Mall, City of Bacoor on October 2-4, 2020.

The three-day event was participated by 20 exhibitors from the provinces of Cavite, Laguna, Rizal, Quezon and Samar. Bagsakan Project served as venue

to sell and showcase their fresh produce and processed food products as well as handicrafts. It also helped them generate income to sustain their operation particularly during the pandemic.

Mr. Joselito Santos, Senior Vice-President of Filinvest Land, INC, in his welcome message, expressed his willingness to support DTI's program and projects that aim to help small businesses.

In his keynote speech, Undersecretary Abdulgani M. Macatoman, DTI – TPG, reiterated that the main objective of the

project was to help the farmers and other plant growers to start over their businesses that have been greatly affected by the pandemic.

ARD Marissa C. Argente, DTI IV-A and Director Marievic M. Bonoan, Bureau of Domestic Trade Promotion accompanied Usec. Macatoman in touring the exhibit area.

Bagsakan Special Project of DTI – BDTP was made possible in partnership with various commercial establishments as well as e-commerce platforms.—PICAD

SM City Dasmariñas and SM Foundation recently held bloodletting program in partnership with Philippine Red Cross. It was participated by the Mall employees, tenants and Security personnel.

MOVIE WATCHING IS MORE SAFE AND FUN AT SM CINEMA

Moviegoers can again enjoy movies on the big screen as SM Cinemas re-open at select branches starting on October 14 with enhanced safety measures for a much-missed fun movie watching experience.

With that, film enthusiasts can look forward to watching the much-awaited *Break The Silence: The Movie*, the latest film from global K-Pop superstars BTS; as well as *Digimon*, an anime film from Japan, *Train to Busan Peninsula* and *My Spy*.

The branches re-opening include SM Cinemas in Angono, Bacoor, Baguio, Baliuag, Cabanatuan, Calamba, Cauayan, CDO

Downtown, Dasmariñas, Davao, Lanang, Legazpi, Lucena, Marilao, Masinag, Molino, Naga, Olongapo Central, Pampanga, Rosales, San Jose, San Mateo, San Pablo, Santa Rosa, Tarlac, Taytay, Telabastagan and Trece Martires. These

areas placed under Modified General Community Quarantine (MGCQ) following the guidelines set by the Inter-Agency Task Force (IATF).

As its theaters welcome movie goers once more, SM Cinema highlights the safety procedures that need to be observed for a worry-free movie going experience through its #SafeandFunMovieWatching campaign.

All patrons need to wear face masks and face

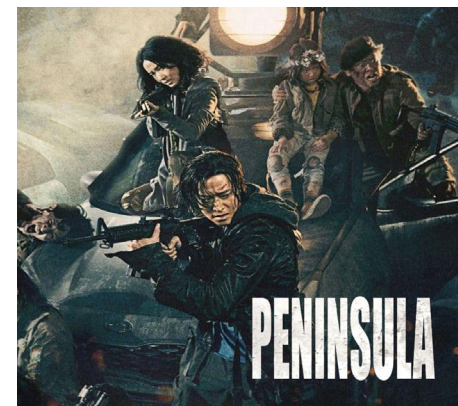

shields. A seat gap policy will be enforced. There will be fewer screenings daily for mandatory intensive sanitation of the theaters and high-touch surfaces. Alcohol and sanitizer dispensers are mandatory within the cinema premises.

SM Cinema is encouraging cashless transactions by booking tickets in advance through the website and mobile app as well as by using touch-free payment methods. A contact tracing program is also in place through scanning the QR code found in the cinema lobby.

For more information about SM Cinema's safety protocols and latest movie updates, follow SMCinema on Facebook and @SM_Cinema on Instagram. Book your tickets at www.smcinema.com or download the SM Cinema app.

BREAK THE SILENCE: THE MOVIE showcases K-pop sensation BTS in a 2020 South Korean documentary film directed by Park Jun-soo and produced by Big Hit Three Sixty. The documentary features the behind-the-scenes of boy band BTS' 2018–2019 Love Yourself: Speak Yourself World Tour - across Los Angeles, Chicago, New York, São Paulo, London, Paris, Osaka, Shizuoka, Riyadh, and Seoul. As the movie travels with BTS, it also explores each band member behind the curtain. Off stage, we see another side of BTS. The seven members begin to candidly tell personal stories they have never voiced before. Coming soon at SM Cinema at SM City Dasmariñas, SM City Bacoor, SM City Trece Martires and SM City Molino.

PENINSULA is the next nail-biting chapter in acclaimed director Yeon Sang-ho's post-apocalyptic world. This comes four years after South Korea's total decimation in *TRAIN TO BUSAN*, the zombie thriller that captivated audiences worldwide. Coming soon at SM Cinema at SM City Dasmariñas, SM City Bacoor, SM City Trece Martires and SM City Molino.

Digimon Adventure: Last Evolution Kizuna, is a Japanese animated action adventure film produced by Toei Animation and animated by Yumeta Company. Set in the same continuity of the first two Digimon television anime series, the film serves as the series finale of the original Digimon Adventure story. This SM exclusive is coming soon at SM Cinema at SM City Dasmariñas, SM City Bacoor, SM City Trece Martires and SM City Molino.

This CIA agent has a new BFF. **My Spy** is coming to SM Cinema at SM City Dasmariñas, SM City Bacoor, SM City Trece Martires and SM City Molino.

Black hole discoveries net Nobels for 3 physicists

ANKARA – Three scientists are sharing the 2020 Nobel Prize in Physics for their groundbreaking discoveries about the exotic objects known as black holes, the Royal Swedish Academy of Sciences announced Tuesday.

Half of the monetary award is going to Roger Penrose of Oxford University for the “discovery that black hole formation is a robust prediction of the general theory of relativity,” the academy said in a press release.

“His groundbreaking (1965) article is still regarded as the most important contribution to the general theory of relativity since (Albert) Einstein,” the theory’s original author, it added.

The other half is being jointly awarded to Reinhard Genzel, the director of Germany’s Max Planck Institute for Extraterrestrial Physics, and Andrea Ghez, an astronomer and physicist at the University of California, Los Angeles, for “the discovery of a supermassive compact object at the center of our galaxy.”

Ghez is the fourth woman to win a

Physics Nobel. David Haviland, who chairs the Nobel Committee for Physics, said the discoveries of this year’s laureates broke new ground in the study of compact and supermassive objects.

“But these exotic objects still pose many questions that beg for answers and motivate future research. Not only questions about their inner structure, but also questions about how to test our theory of gravity under the extreme conditions in the immediate vicinity of a black hole,” Haviland added.

The award's cash prize, worth 19 million Swedish kronor (more than USD1.1 million), will be shared by the laureates.

On Monday, the 2020 Nobel in Physiology or Medicine was awarded to scientists Harvey J. Alter, Michael Houghton, and Charles M. Rice for their discovery of the Hepatitis C virus.

Founded in 1739, the Royal Swedish Academy of Sciences is an independent organization aiming to promote natural sciences and strengthen their influence in society. (Anadolu)

OFWs warned against illegal recruiters amid pandemic

MANILA – Philippine Overseas Employment Administration (POEA) Administrator Bernard Olalia on Wednesday warned the overseas Filipino workers (OFWs) against illegal recruiters particularly those engaged in third country recruitment.

Olalia said unscrupulous individuals or groups are using the coronavirus disease 2019 (Covid-19) pandemic to entice Filipino workers abroad by offering higher salaries.

“We would like to remind our OFWs against third country recruitment. They are being offered jobs with high salaries. Avoid them, Don’t be victims,” he said during the weekly forum of the Department of Labor and Employment (DOLE).

He said illegal recruiters are using different social media

platforms in offering supposedly high-paying jobs to Filipinos employed overseas.

Olalia advised the Filipinos abroad to always check and validate the invitation at any Philippine Overseas Labor Office (POLOs), Labor Attachés, and Philippine embassies.

Aside from validating the invitation, he said the OFW should also be aware on who is/are those recruiting them.

“They should validate the invitation at our POLOs, Labor Attaché, embassy and also check it at our website, www.poea.gov.ph. They should know the identities of those who are recruiting them,” he said. “If they were asked to pay placement fee, they should have doubts that they are being victimized by illegal recruiters.” (By Ferdinand Patinio/PNA)

DepEd reports '100% enrollment' in public schools

MANILA – The Department of Education (DepEd) on Thursday reported it has achieved "100 percent enrollment" in public schools nationwide for the school year 2020 to 2021 which opened October 5.

Latest enrollment data from the department show that a total of 22,587,496 learners have enrolled in public schools which is 14,573 higher compared to the number of enrollees last year at 22,572,923.

In private schools, there are a total of 2.18 million learners enrolled. Combined, the overall enrollment tally nationwide is 24.8 million.

Region - 4 A (Calabarzon) logged the

highest number of enrollees with 3,421,256 while the Cordillera Administrative Region recorded the lowest with 400,105.

The enrollees were from kindergarten to senior high school, as well as learners with disabilities and those taking the alternative system.

During a Cabinet meeting on Monday, Education Secretary Leonor Briones said current enrollment is “higher than the 80 percent adjusted number which was assigned to the DepEd by the National Economic and Development Authority”. (By Ma. Teresa Montemayor/PNA)
