PLDT to invest 'much higher' than PHP73 billion in 2021

MANILA – To help the Philippines and its telecommunications infrastructure reach parity with neighboring countries such as Vietnam and Thailand, a PLDT executive said on Wednesday the company is investing PHP73 billion in improving its network

infrastructure and coverage, with plans to invest even more next year.

In a statement, Alfredo Panlilio, PLDT chief revenue officer, said the company and its wireless subsidiary Smart will continue to rollout out fiber, LTE, and 5G, noting that

PLDT and Smart's average download and upload speeds are higher than the country's average.

"We continue to improve our services, and we are not standing pat. We are not yet happy. If we can be at parity with countries like Vietnam and Thailand, that is the benchmark that PLDT and Smart are aiming for. We know that we

Imus High school unveils solar panels for sustainable energy

MANILA – To introduce sustainable energy for the future of learners, the Imus National High School (INHS) formally launched its solar panels through the Legacy Projects of the City Government of Imus and the Green School Program (GSP).

"Nangangako ako na (I promised that) when the results are in and if we discover and we have the evidence that when we create green schools, learners will learn better, we will use resources more efficiently walang dahilan na hindi natin ipamalita sa

ibang sangay, sa ibang DepEd offices sa Calabarzon at sa buong bansa na ang gawain katulad nito ay dapat na tinutularan (There is no reason why we should not spread to other offices of Department of Education in Calabarzon and throughout the country

this kind of project that should be emulated)," DepEd Undersecretary for Curriculum and Instruction Diosdado San Antonio said in a news release on Thursday.

Led by INHS Principal Arturo Rosaroso Jr., INHS and GSP held previous

projects such as improvised water harvesters, greening, and recycling projects that led to the granting of solar panels.

"Ito na ang realisasyon ng isang pangarap. Pangarap lamang ito noong simula, pangarap kung saan gusto po nating

ipakita, hindi lamang dito sa ating paaralan kundi pati [na rin] sa ating lungsod na ang mga nanunungkulan at ang buong mamamayan ng Imuseño ay mayroong totoong pagmamahal, pagbibigay ng importansya, at

Tollway operators warned of penalties, suspension over RFID mess

MANILA – The Toll Regulatory Board (TRB) warned tollway operators of penalties and possible suspension over violations of the implementing rules and regulations of cashless transactions in expressways.

In a statement on Tuesday evening, the TRB said its continuing operations and systems audit in enforcing

cashless transactions in toll plazas has identified glitches that have been relayed to toll operators.

"These glitches, admitted by the North Luzon Expressway (NLEX) Corp. to be happening, are not new to TRB management and were subject to notices to correct," the TRB said.

To avoid penalties and possible

suspension, it ordered toll operators to "aggressively pursue and consistently implement" measures that would fix issues with their radio frequency identification (RFID) systems and help ease traffic.

These include the immediate replacement of worn-out or defective RFID sensors, related RFID equipment, and RFID

Toll booths at NLEX (File photo)

tags; relocation of RFID installation and reloading lanes that hamper traffic flow; maintenance or

upgrade of systems software; enhancing traffic management, and improving customer service.

Following the suspension of the business permit of the NLEX Corp. by

Lack of sleep makes body more vulnerable to infections

ISTANBUL – Stressing the role of Sleep, exercise, and stress control are significant factors for a strong immune system, said Turkish scientists Monday, warning that sleep deprivation causes vulnerability to infectious diseases.

"Get enough sleep so that enough melatonin is secreted, do not smoke, do not use tobacco products, eat a diet rich in vegetables and fruits, exercise regularly," Turkish Kidney Foundation said in a statement on ways to strengthen the immune system.

The foundation also recommended washing hands regularly and properly, as well as reducing stress levels.

"It has been shown that the immune system is impaired and vulnerability to infections rises in many sleep-related diseases," said Dr. Derya Karadeniz, an expert on sleep disorders,

stressing the role of sleep in body repair.

Experimental studies prove a strong relationship between the immune system and sleep, she noted, adding that in a study in which people who were only allowed four hours of sleep for four nights had much weaker immune responses when given the flu vaccine on the fifth day compared to those who had regular hours of sleep.

Timur Erk, the head of the foundation, warned that essential vitamins and minerals should be taken to meet the needs of people amid the coronavirus disease 2019 (Covid-19) pandemic.

"Healthy diet, exercise, stress control, and sleep ... A saying of our grandmothers, 'children grow asleep', now applies to all individuals and has been proven by scientific research," he added. (Anadolu)

TOOLWAY. . . Fr. p 1

Valenzuela City Mayor Rex Gatchalian on Monday, the TRB said the matter is "between the City of Valenzuela and the NLEx operator."

"We have been assured that this is being given appropriate attention and hoped to be resolved very soon," the board said.

Earlier, the NLEx Corp. said it would seek "a series of dialogues" with Gatchalian after the revocation of their business permit in Valenzuela City over heavy traffic caused by the implementation of

cashless toll transactions.

The revocation of the permit forced the company to waive toll fees in its toll gates in the city, specifically the Karuhatan-Mindanao Avenue Toll Plaza, Karuhatan-Harborlink Toll Plaza, Karuhatan-MacArthur Highway Sub-Exit, Mindanao Avenue Toll Plaza, Paso de Blas Toll Plaza North Bound, Paso de Blas Toll Plaza South Bound, and Lawang Bato Toll Booth. IMUS . . Fr. p 1

pangangalaga sa ating kapaligiran (It was a realization of a dream where we want to show not only in our school but throughout the city that our leaders and people of Imus care for our environment)," Imus Mayor Emmanuel Maliksi said.

Led by Maliksi, the grant was in partnership with Manila Electric Company (Meralco) under the Imus City Legacy Projects which aims to create a clean and green city.

"Sa Imus, kaalinsabay sa pag-unlad ay ang pangangalaga sa kalikasan, kasama ito sa pinahahalagahan natin. Hindi lang ito basta proyekto kundi mga programa na magiging Legacy Project na iiwan ng ating lungsod para sa susunod pang mga henerasyon (In Imus, as we progress, we want also to protect our environment. This is not just a project but a program that will become legacy project that we will leave for the next generations of the city)," Imus Vice Mayor Arnel Cantimbuhan said.

In response to the harmful effects on the environment and the increasing expenses of the school, INHS has switched to

environmental-friendly alternatives to sustain its increasing energy demand due to the Covid-19 pandemic, which forced the citizens of Imus to use more electricity to cope with the new normal of education.

"The school program aims [to] create a healthy environment that is conducive to learning while saving energy, resources, and money. This is the process where [schools] pursue knowledge and practices with intentions of becoming more environmentally friendly and more economically responsible," Rosaroso said.

With the continuous support of the City Government of Imus and Schools Division Office (SDO) of Imus City, DepEd, and the Department of Environment and Natural Resources (DENR), Rosaroso expressed hope that the project will encourage the youth to contribute to creating more sustainable approaches in the environment.

[I] want our learners to realize that despite the pandemic, schools [should] not stop pursuing education sustainability and that they should not stop learning," Rosaroso said. (PR)

PLDT . . Fr. p 1

can still get better for the benefit of our customers," Panlilio said.

To elevate Smart to global standards, he said the company is aiming for minimum average broadband speeds of at least 30 megabits per second (Mbps) in Metro Manila and some other key cities by 2021 through its LTE network.

By 2025, he said they are aiming for 84 percent of the population to have an average mobile data speed of 60 Mbps.

PLDT with its wired broadband service, he said, targets an average of 20 Mbps aside from its planned migration of legacy DSL copper line subscribers to fiber and "fiber-like services."

PLDT has rolled out close to 100,000 kilometers of fiber lines for this year alone, noting that all four broadband players in the country rolled out a

total of 144,727 kilometers for this year, according to the National Telecommunications Commission (NTC).

In total, PLDT said its fiber infrastructure now spans more than 422,000 kms and supports Smart's 4G, 3G, and 2G networks.

"As of November, Smart has also increased the number of its LTE and 3G base stations to over 58,000, increasing the number of LTE base stations by 20 percent compared to end-2019. Smart has also rolled out additional 5G sites as it accelerates its 5G commercial services nationwide," PLDT-Smart said.

To date, it said Smart's mobile network covers 96 percent of the population and is present in 95 percent of cities and municipalities in the country. (By Raymond Carl Dela Cruz/PNA)

UNIQLO PROVIDES AID TO PH FOR THE FAMILIES AFFECTED BY TYPHOON ROLLY AND ULYSSES

Uniqlo Philippines donates 300,000 pieces of AIRism mask through SM Foundation, Inc. for the families affected by the recent typhoons in the Philippines. In photo are Uniqlo Philippines Co-COO Geraldine Sia, Uniqlo Philippines COO Masayoshi Nakamura, SM Foundation, Inc. Executive Director Debbie Sy, and SM Foundation Inc. Executive Director for Medical and Health Programs Connie Angeles.

Japanese global apparel retailer Uniqlo offers its deepest condolences to the families affected by Typhoon Rolly and Typhoon Ulysses in the Philippines. To support relief and recovery efforts, Uniqlo via its parent company Fast Retailing, will donate \$1 million (approx. 48 million in peso) in aid. The donation will be made through the SM Foundation, an entity that manages the CSR activities of the SM Group – the management partner of Uniqlo in the Philippines. The donation will be used to provide emergency food supplies and rebuild flooded housing, as well as build preventative infrastructure in areas susceptible to flooding.

Furthermore, Uniqlo in the Philippines will donate 300,000 AIRism masks to affected areas through the SM foundation. The masks will be donated to evacuees in the affected areas of the Bicol Region, Bulacan, Cagayan, Isabela, Pampanga, and Rizal provinces, as well as Marikina City.

Uniqlo opened its first store in the Philippines in Manila, in June 2012, and currently operates 60 stores throughout the country. The typhoons have not caused any direct damage to Uniqlo stores.

Uniqlo hopes for the speedy recovery of these regions and that the families affected of these disasters can return to their normal lives as soon as possible.

BOTIKA ON WHEELS GOES TO TANZA: For the whole month of November provincial government of Cavite's Botika on Wheels rolled in 41 barangays of the municipality of Tanza. The program aimed to deliver medicine and other supply for children and elderlies right at their doorsteps. A total of 3, 685 senior citizens were given free maintenance medicines and vitamins while the children received insect repellent lotion for dengue prevention. The BOW team were accompanied by Mayor Yuri Pacumio, 7th District Board Members Ping Remulla and Lito Langit together with Tanza SB Members in roaming around the municipality. To date, the program has visited a total of 356 barangays serving a total of 25, 602 senior citizens and 31, 256 children beneficiaries.--

Tanza receives school building from SM

SM Prime, through SM Foundation, formally turned over a two-story, four-classroom school building to Punta Elementary School (PES) in Tanza, Cavite on November 20.

These new classrooms are set to be utilized by Grade 2 pupils once the threat of COVID-19 subsides. According to the school principal, Dr. Gloria Casiano, before the COVID pandemic, some of their classes are held in their covered court. This SM school building will help address their room shortages and will improve their current classroom to student ratio of 1:50.

“We are overwhelmed and thankful to SM Foundation and SM Prime for continuing with the project despite the COVID-19 pandemic. This school building will serve as a haven in nurturing the young minds of our Puntaceño learners,” Dr. Casiano said.

Following the default design of SM school buildings, this infrastructure is fully-furnished, PWD-friendly and emergency-ready. Moreover, SM Foundation tapped the members of the Foundation of These-Able Persons to make the teacher’s desk sets and student armchairs. Through this strategy, SMFI is enabling the PWDs to be economically self-sufficient and at the same time, highlights their valuable contribution in nation-building.

To care for the wellness of the school population, additional features were also installed such as a

library hub, guidance and counselling room, and a clinic with an isolation room where pupils can be given first aid treatment or isolated at the onset of early symptoms of illness.

The SM School building also boasts a 10-faucet handwashing area that intends to promote handwashing in the community. With such feature, SMFI aims to spread the culture of good hygiene – which prevents the spread of harmful viruses and diseases.

Established in June 1937, the PES is one of the oldest schools in the municipality with a 50-year-old tree that stands in the campus. In order to promote the culture of environmental conservation, SM Foundation developed the area into a study garden or “green space” by putting four tables and eight benches around the tree. With the green space, SM intends to reduce the stress of the children, enhance their mental health, concentration and environmental awareness – aside from providing the students and teachers with additional learning area.

In addition to Punta Elementary School, Basud Elementary School in Sorsogon City and Banisil Elementary School in General Santos are also scheduled to receive a fully-furnished school building this year.

SM Foundation, through its School Building Program, is an active partner of DepEd’s Adopt-a-School program. This social good initiative aims to promote quality public education by building classrooms nationwide.

Teachers prepare for their lessons using the laptops from SM Foundation.

SM CITY BACOOR INITIATES OPERATION TULONG EXPRESS

Look: SM City Bacoor representatives with Mall Manager Josephine Arvesu and Assistant Mall Manager Mr. Ben Ali Tolentino with the Barangay Officials of BARS Habay-1, Bacoor City, Cavite.

SM CITY BACOOR, CAVITE – After the destructive flood Typhoon Ulysses left at most parts the Philippines, most of us were busy clearing our own properties, get back to our usual routine and have our business as usual. But since most areas in Bacoor City has been flooded as high as waist-deep, SM City Bacoor again rolled out to bring Kalinga Packs to the affected residents of BARS Barangay Habay 1. The relief goods were turned over to Barangay Representative Kagawad Mike Solis, who later on headed the distribution on their respective area. 500 families were blessed to receive the Kalinga packs containing food and hygiene materials.

Literacy and numeracy corner to further help in the cognitive development of learners.

PES teachers utilize the 10-faucet handwashing facility installed in front of their newly turned over SM school building.
